Improving the Response Efficiency and Minimizing the Risks of Oil Spill 提高应急响应能力 降低溢油风险

Overview

In recent years, oil spill rates have escalated to a serious level of incidents. We are poised to creating public awareness and training of oil workers in oil spill management & control and safety in oil & gas industry. A policy of the Maritime Safety Administration of China (MSA) being achieved this year - The National Construction Plan (2015-1020) For Major Marine Oil spill Accidents Response Ability. According to the Plan, 191 emergency equipment bases and 260 vessels will be built. But how to achieve the target and improve the ability together with all the organizations and service suppliers related to emergency response? It's the time again to discuss at OSRW 2016, the only event in China of its kind.

Presented by The Oriental Pro-Energy Consulting Organization (Topco), the 5th Conference and Exhibition—Oil Spill Response Workshop (OSRW 2016) will be held from 8-9 December in Beijing China. Themed as Improving the Ability of Spill Control and Risk Management by Collaborative Innovation, OSRW 2016 is designed to be Asia's top networking, knowledge-sharing and sourcing event of choice for oil spill prevention and clearing professionals and companies. The event features discussions on technical innovations and best practices across spill prevention, preparedness, response and restoration. It will provide an optimum mix of networking opportunities for industry shareholders and will bring to the audience the most update technology and cost-efficient solutions to contain oil spill. Themed Improving Environment amid Spill Prevention, Preparedness and Response, the exhibition will display the latest technologies and equipments. Representatives from ITOPI, ISCO, OSRL, TIEMS, MSA, SOA, China Rescue & Salvage,

State Administration of Work Safety, MEPC, CNOOC, CNPC, Sinopec and Chevron also took part in the workshop as industry experts. We recorded a huge success in the conference attendance and achievements in the past five years by showcasing the latest and best technologies and solutions for oil spill through dedicated sessions.

OSRW 2016 will once again be complimented by an exhibition of equipment and service providers in the oil spill preparedness and response industry. Welcome to join us at OSRW 2016 in Beijing China!

OSRW 2016 Features on

- Spill prevention and response for oil exploration and production in offshore and subsea
- Spill response for vessels, ports and hazardous chemicals
- New equipments and latest technologies for spill response
- Spill monitor, and test and risk evaluation
- Construction of response capability
- Preparedness and restoration
- Operation of oil pollution compensation fund
- Spill response for oil storage
- Regulation, legislation and insurance

Attendee Profile

The conference attendees would be primarily Environmentalists, HSSE Professionals, Plant/Operations managers, Regulators, Scientist & Engineers, Top Management and others concerned with oil spill prevention, response and restoration. These attendees would be from following categories:

- Government Authorities
- NOCs & IOCs
- Shipping Owners/ Manufacturers
- Port Organizations
- Salvage Companies
- Marine Scientists and Researchers
- Response Specialists
- Community and Public Interest Group
- Pollution Response Equipment Suppliers
- Attorneys/ Engineers/ Insurance Agents
- EH&S Professionals/ Plant and Asset Managers
- Consultants
- Public Relation Companies
- Well Control Companies
- Pipeline Operators
- Storage Facilities
- Petrochemical Facilities and Refineries
- Equipment and technology suppliers

Exhibitor Profile (Exhibitors include, but are not limited to:)

- Area Clean up/Restoration
- Aviation Services/Surveillance
- Wildlife Rescue and rehab Agencies
- Marine Salvage & Wreck Removal Companies
- HNS Companies
- Mapping Agencies
- Security Agencies (including port security)
- Prevention Systems (including spray system agencies)
- IT Software and Training
- Insurance (Liability/Pollution)
- Emergency Response Cell
- Electrical Generators
- Damage assessments
- Diving services
- HSSE services & equipments
- Bioremediation
- Field Equipment/ Services Satellite Tracking System
- Training Institutes
- Transport Services
- Water Treatment Agencies
- Working Boats/ Small Boats/ Vessels Manufacturers
- Communication Equipments, Explosion-Proof Electric Equipments All the equipment and service suppliers in above sectors

300 +
Industry stakeholders attend

100 +
End users and officials visit

30 +
Top equipment and technologies suppliers exhibit

20 +
Eminent Speakers' insight sharing

Speakers in the Past Sessions

K. Harald Drager
President
The International Emergency Management Society (TIEMS)

Zhang Jianxin
Deputy Director General
China Rescue and Salvage of Ministry of Transport (CRS)

Gao Jie
Former Director
Environmental Protection Center, Ministry of Transportation

Zhuo Li
Deputy Director
China Maritime Search and Rescue Center

Wang Hui
Director
National Marine Environmental Forecasting Center

Cao Wei
Assistant Researcher,
China Academy of Transport Sciences, Ministry of Transport

Bill Peng
Bohai HSE Manager
ConocoPhillips China

Qu Guosheng
Vice President
The International Emergency Management Society (TIEMS)

Dr. Qiao Bing
Vice Chief Engineer
China Waterborne Transport Research Institute, Ministry of Transportation

Dave Barry
President
Gallagher Marine System

Liu Jingkai
Director of Emergency Office
HSE Dep., CNPC

Zhao Shaozhen
Deputy Director
Petrochina Offshore Emergency Rescue Response Center

Konny Reichert
Business Development & Innovation
OceanWaveS & Rutter Inc

Wang Zhongdai
Deputy Director
Division of Environmental and Resources Research, Transport

Dr. Chu Shengli
Director
Research Dept. of Emergency Technology and HSE Management System, CNPC

Arne Koldevin Olsen
Business General Manager
The Hui's Group (HK) Limited

Zhou Hainan
Director
Marine Emergency Response Center Sinopec Shengli Oilfield

Dr. Peng Shitao
Vice Chief Engineer
Tianjin Research Institute of Water Transport Engineering of Ministry of Transport

Wu Yue
General Manager
HongKong Spill Response Technology Co.,Ltd

Dr. Mu Lin,
Business Development Director
National Marine Data and Information Service (NMDIS)

Dr. Shi Xiaoyong
Professor/ Engineer
National Marine Hazard Mitigation Service State Oceanic Administration of China

Dr. Theo Hengstermann
Business Development & Sales
Optimare Systems GmbH

Thomas Heng
Senior Spill Response Specialist / Duty Manager
Oil Spill Response Limited (OSRL)

Chen Junfeng, Director, Environmental Protection and Transportation Safety Center,
China Waterborne Transport Research Institute, Ministry of Transport

Xia Jun
Maritime Lawyer
Beijing Zhongzi Law Office

Zhou Jian
Sales Manager
Qingdao Huahai Environmental Protection Industry Co.,Ltd

Jack Li
Managing Partner, Principal Consultant
Shenzhen emTek Management Consulting Co Ltd.

Delegates visited CNOOC

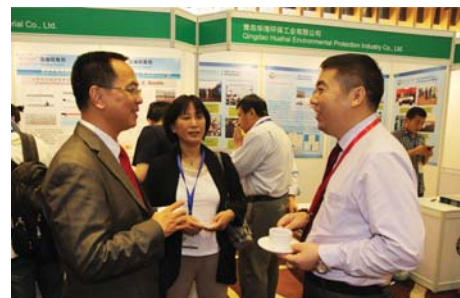

Schedule In A Glance

8 December Conference and Exhibition

- 12:00-13:20 Registration
- 13:20-17:20 Policy and Regulation Session
- 17:20-18:00 Panel Discussion
- 18:00-20:00 Networking Reception and Exhibition Visit

9 December Conference and Exhibition

- 08:50-12:20 Cleaning Capability Construction Session
- 12:00-13:30 Networking Lunch and Exhibition Visit
- 13:30-15:30 Technical Session 1:
Monitoring and Prevention, Emergency Response,
Environment Recovers
- 15:30-17:00 Technical Session 1:
Emergency Response for Hazardous Chemicals
- 17:00 End of Event
